Let Him Come To Me"-Jim Won't Talk Back-Association Footballists to Open Season Here-French Team Makes Big Gain in Six Day Race.

Victoria, B. C., March 9.—Jack Johnson, the heavyweight champion puglist, and his white wife, who was formerly Miss Neilie O'Brien of Philadelphia, marrying him after his fight at Sydney, and Sam Fitzpatrick, who is no longer manager of the big black champion, arrived this morning by the Canadian Pacific-Australian steamer Makura, from Sydney.

Johnson unreservedly declared his willingness to meet Jeffries or any other man. In an interview just before leaving for Vancouver Johnson said to the Associated Press:

"I am willing to meet any man in the world, and I do not think anyone can get a decision over me, much less put me out. No I'm not making any predictions. What's the matter, though, in the talk of arrangements of a fight with Jeffries?

Probably No Fight in Six Months.

It is doubtful, according to the arrangements made by Johnson, whether any fight could be brought on with Jeffries, Ketchell, or any other man within six months. While his plans are not absolute, he hinted at willingness to change them if anything blg was hung up for a match with Ketchell.

Sam Fitzpatrick, when asked about his split with Johnson, said it had begun soon after the fight. "Johnson was a different man before the fight," he said, "he would feed out of the hand then, but he is a hard man to handle now. We decided to split soon after the Makura left."

The last named late today succeeded in passing Dineen and Prouty, the early leaders in the race, and several hours later Feegan and Curtis, the Irish team, did likewise. The veteran Dineen today plainly showed the wear of his team's first day's effort to retain the lead and experts would not be surprised were he forced to retire. Cibot and Orphee, the leaders, had scored 293 miles and six laps at midnight tonight, which is four miles and six laps behind the record of 298 miles and 2 laps for 48 hours made in 1902. Davis and Metkus had covered 276 miles 2 laps, Feegan and Curtis 276 miles 3 laps, and Dineen and Prouty 268 miles 2 laps, at the end of the 48th hour.

The score of the three leaders at n. m. was: Cloot and Orphee 308 miles 5 laps; Davis and Metkus 289 miles, laps; Feegan and Curtis 279 miles,

Total 302. Slow working pitchers are perhaps more aggrevating to the crowds than to the opposing baismen. Baseball owes its popularity as much to the fact that there is constant action as to its uncertainty, and for this reason the pitcher who deliberately wastes much time in posing becomes annoying to the spectators. Of course, the individual who resorts to these dilatory tactics does so to help his effectiveness, believing that by waiting he wears out the baisman. In only one instance, however, has the slow working pitcher proved a success, and it was because of this fact that the rule was because of this fact that the rule was because of this fact that the rule was because the ball 20 seconds after he has taken his position with the baisman in place. The man who brought this rule about was George Cuppy, the old Cieveland pitcher. Cuppy was never known to pitch a game of ball in less than two hours and a half. Others have tried to imitate his style, but none have made a success of it.

In many instances the fact that a pitcher worked slow has had a detrimental effect on his support. The players behind him virtually went to sleep waiting for him to pitch and then could not cover any ground. George Mullin of the Tigers has had this falling, and though he usually pitches exceptionally good ball, he has not won the number of games a pitcher of his ability should. This has been attributed to his slowness in, the box, and he has promised to change his style hereafter. Joe Doyle of the Yankees has passed out of fast company. So has Lattimore, the Naps' southpaw both of whom were known for the amount of time they wasted whenever they were put on the rubber.

Said wrestling match to be best two out of three falls at catchweights, to a finish. wrestling match to be best two out of three falls at catchweights, to a finish. Chick Lawson is not to weigh over 116 pounds ringside and Young Hendek not to weigh over 125 pounds ringside, catch as catch can style, strangle hold barred, pin falls to count. We will expect a side bet of \$50 and to div to the net gate receipts 40 percent. To the winner, 40 per cent. 20 per cent. to the loser. As I have selected the Windham Athletic club rooms as the place to hold the match, I posted the forfeit money with the sporting editor of the Willimantic Dality Chronicle, as it will be much handler for all concerned. Hoping this will Made. It was in 1888 that Harry Stovey of the oid A', letics stole 156 bases in one season, which is the record for all time. How sadly base running has deteriorated will be appreciated when it is known that last season Hans Wagner led the National league with 52 stolen bases, while Dougherty was high man for the American league with 47. Are the catchers of today better than the great backstops of a decade ago? Only those who never saw Ewing, Bushong, Kelly, Robinson, Bennett and the other heroes of the 80s and 90s in action would seriously make such a claim, and yet Hamilton in 1890 stole 102 bases and in 1891 lifted his record to 115. Johnny Ward was the high man in 1892 with 92 pilifers and led again in 1893 with 72, but Hamilor for all concerned. Hoping this will e satisfactory to all, I remain, yours espectfully. ARTHUR B. SMALL.

Maloney's action carefully Dorando requested his managers to accept the challenge and cover the \$1,000 which the Irishman has had posted for the last few weeks. Dorando expressed his willingness to take part of the side bet himself, so that all that now remains is for the backers of the Yonkers man to stand by their challenge.

While anxious to meet Maloney, the Italian was nevertheless loud in his praise of the Irishman's style of running, and pointed out that he had the ideal flat footed method of going over the ground that shows in all great distance men.

Ion was once more the star stealer in 1894 with 99 and again led the old league in 1895 with 95. Then came grandest bull players in all the history of the game. He stole 100 bases in 1896 and 83 in 1897. Beginning in 1898 base stealing began to decline until now the play—common enough 20 years ago—is rare enough to call for special mention when successfully negotiated.

from Stocks-Dealings Dwindle. New York, March 9.—The stock market shows with growing clearness that substantial financial interests are holding aloef. The dealings dwindle and the current of the price movement. is more and more singgish. Events which would be considered to have an important bearing on speculative con-ditions at another time are passed by with scarcely any notice. Financial traders consider that the United States traders consider that the United States district court decision of yesterday against the Missouri radiroad rate law is of far reaching importance, not only to the radiroads directly concerned, but in its indeation of the judicial safeguards against similar legislation elsewhere. The attempt today to extend the moderate effect of this decision which was feit yesterday proved futile. The difficulty encountered by the professional traders in making this factor effective to lift prices of stocks and the consequent sense of discouragement had much to do in diverting the efforts to the other side of the market, and in forcing the later decline in prices. The slump in American Ice after a widden advance, secompanied by industrions tipping, gave an example of a tip gone wrong and serial as a warning of its fanger. a tip gone wrong and serial as a waralog of its danger. The freet was bad on the tone of the mantet. Vague rumors of a coming bond issue by the Missouri Pacific and the Union Pacific had a moderate strengthening effect for a time, but did not last. as has been the outgo of gold to Argentina, but was interesting as marking the first shipments of the metal direct to London from New York since before the financial panic of 1997. London bore most of the strain of the convuisive demand for gold from New York in the panic, and drew on the continental centers to replenish its supplies. The shipments tomorrow of gold from New York to London represent in some ways the resumption of normal conditions between the two markets. The fact that two months merchandise exports from this country have fallen \$43.000.000 in value below to e for the same period last year, while imports in the same comparison have increased \$43.000.000, makes the reason for the movement plain. Momey rates were quotably lower today, both on call and on time. Last prices of stocks were around the lowest of the dear. Bonds were irregular. Total sales, par value, \$3.296.000.
